

00SH HINGED STOP COLLAR

ENGINEERING SOLUTIONS FOR DEMANDING WELLS CONDITIONS

The 00SH is a high strength stop collar developed for use in challenging wells with the same integrated hinge technology as the S2 Hinged bow spring centralizer.

The 00SH provides a high-performance method of securing and protecting centralizers on the casing string. Made from the same material as our ultra-high strength S2 Hinged centralizer, the 00SH utilizes a low profile, twisted hinge design for quick installation.

The 00SH can withstand high axial forces, making it suitable for demanding well conditions. Each 00SH stop collar is heat treated for strength to increase performance and reduce brittleness. Unique set screw design provides industry leading holding forces without excessive marring of wellbore tubulars.

Available with single and double-row HD set screw configurations depending on casing size.

CENTRALIZERS

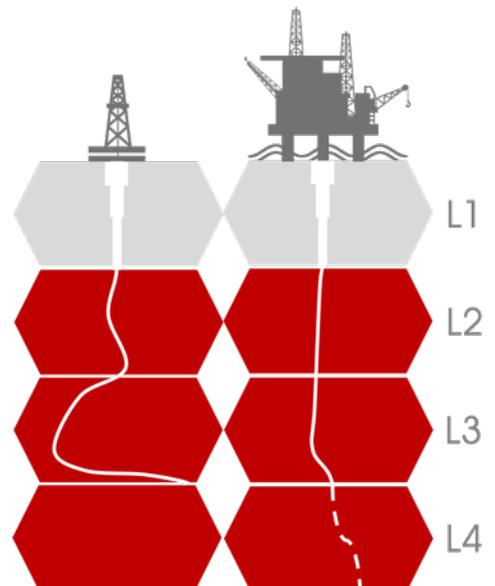

00SH stop collars are developed as counterparts to the Centek S2 Hinged centralizer

FEATURES AND BENEFITS

- Does not require 4" axial slippage to exceed the 10D-2 performance standard
- Premium hinged stop collar
- Fitment tested to up to 50 lb-ft torque
- Anti-vibration screw retention
- Maximum performance on casing grades up to P110

TARGET APPLICATIONS

- Demanding well conditions

PERFORMANCE RATINGS

CORE PRODUCT SIZING*

PART NUMBER	
Product size	Stop Collar
5 1/2" ID	0512-00SH
7" ID	0700-00SH
9 5/8" ID	0958-00SH
9 7/8" ID	0978-00SH
13 3/8" ID	1338-00SH
13 5/8" ID	1358-00SH
18 5/8" ID	1858-00SH
20" ID	2000-00SH
22" ID	2200-00SH
24" ID	2400-00SH
