

# HSN HINGED STOP COLLAR WITH SPIRAL NAIL

## ENGINEERING SOLUTIONS FOR ONSHORE WELLS

Stop collar with spiral nail installation for quick fitment in onshore wells. The HSN is developed to complement our range of hinged centralizer for vertical and horizontal wellbore sections.

Made from the same material as our bow spring centralizers, the HSN is developed for use in less deviated wells.

The spiral nail is driven firmly into internal grooves which locks the stop collar against the casing, providing maximum annular clearance, improving installation and reducing rig time

## CENTRALIZERS

HSN stop collars are developed as counterparts to Centek's hinged centralizers for less challenging wells

## FEATURES AND BENEFITS

- Economic choice
- Quick installation
- Low profile for low annular clearances
- For use with standard casing grades

## TARGET APPLICATIONS

- Centek QA
- Less demanding well conditions
- Onshore
- Surface casing and vertical sections

## PERFORMANCE RATINGS

## CORE PRODUCT SIZING\*
